

NRC Membership Committee Report

August 21, 2020

The Committee met on August 4 with an ambitious agenda. Most of the conversation focused:

- On SRO/Affiliates and their relationship to NRC.
- Issues related to encouraging public members (pros and cons), including benefits
- What is NRC's purpose and does it fulfill that purpose (including the need for a Strategic Plan and professional assistance to develop one)
- Important nature of NRC policies and need to make them a more visible component of its value

It was agreed that the Membership Committee would conduct a survey (for its members only) to help determine the priorities and focus for this Committee.

The next call is scheduled for September 3.

Submitted by Lynn Rubinstein, Committee Chair.
